

EXPERIENCE INTELLIGENT HCI WITH HPE SIMPLIVITY

Your business needs more than just ordinary hyperconverged infrastructure (HCI). Many HCI solutions streamline the customer experience with a healthy dose of automation. But to take your organization’s day-to-day operations to the next level and to be free of infrastructure hassles, data loss, and risk—you need more.

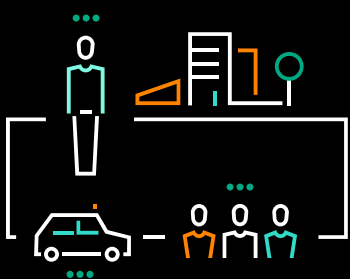

BREAKING THE BOUNDARIES OF HCI

HPE SIMPLIVITY

Experience the new standard for HCI

Intelligently simple

- Simplify management, troubleshooting, and scaling**
- Centrally **manage hundreds of global sites** with a simple user interface experience
 - Update software, hypervisor, and firmware in **one click**
 - **Predict and prevent** issues before they happen with HPE InfoSight
 - Rapidly deploy and scale to meet demand
 - Reduce costs by **69%**²

Hyperefficient

- Achieve exceptional data efficiency and protection without compromise**
- **90% (10X) capacity savings**—guaranteed³
 - **1 TB VM in 60 seconds**—guaranteed⁴
 - Achieve **built-in recovery**, efficient direct to cloud backups, and centralized long-term archiving

Edge optimized

- Automate remote sites at scale**
- Achieve high availability for each site with **only two nodes**
 - Simplify ROBO/edge site control with **centralized management**
 - **Rapid multisite failover** with instant recovery across distributed sites

One platform. One simple experience. One happy admin.

HPE SimpliVity

Collapses silos

Requires no specialists

Lowers cost

Get the HCI solution with the industry’s most complete guarantee⁵—no gimmicks, no separate contracts, and no additional steps
